

LCH 600

High speed and high temperature grease

Description

High tech grease with outstanding chemical and physical properties to allow its use over a long period of time at very high temperature. This complex lithium soap grease is specially designed to also work under severe loads even in humid environment. Superior additivation: against oxidation, anti-wear, and giving resistance to heavy loads and stokes are giving this grease the properties to match difficult lubrication requirements.

Applications

For all type of bearing, submitted to severe condition of use, speed and temperature. Lubrication of paper machine bearings, textile machines, electric motors, hot gas fans, drying ovens ...

Technical data

Operating temperature range: -20°C to +160°C (180°C peaks)

NLGI Grade: 2

NDN Factor: 800 000
