

# **VERNIS GRAPHITE**

## High-temperatures coating - dry graphite lubricant

### Description

Polymerises at ambient temperature, it is suitable for protecting all types of workpieces subject to high temperatures. Has good adhesion on all substrates.

### Applications

Recommended for lacquering glass works moulds, tooling treatment, assembling and lubricating mechanical or cast parts. Dies and tooling in the manufacture of aluminium profiles.

#### Technical data

Operating temperature range: -30°C to +600°C Propellant gas: DME
