

VEGA 908

Ecofriendly lubricant for chains and cables

Description

Without safety labelling. Renewable raw materials-based, used for lubrication in moist conditions. used for lubrication in moist conditions. Smooth and adherent with good anti-wear qualities. Strong penetrative properties for homogeneous spreading of lubricant up to the centre of link shafts. VEGA 908 contains 100% USDA certified biobased content.

Applications

For conveyor and quenching chains, paint oven and screen printing ovens. Used in all types of industry, automobile industry, tin cans, sugar, chemicals, etc.

Technical data

Operating temperature range: -30°C to +140°C

Viscosity @ 40°C: 160 cst (liquid)

Non-flammable propellant: CO2

RRM: 100%
