

LUBA 50

Ecofriendly extreme pressure lubricant for deep-drawing operations

Description

Cold forming chlorine-free fluid. Designed to replace solvanted oils and mineral based fluids. Made from vegetal synthetic esters, it possesses an outstanding wetting power allowing better parts finishings and longer tools lifetime.

Applications

For deep-drawing operations on any materials: steel, stainless steel, aluminum, copper and their alloys (on copper, rinse off immediately). Suitable for threading and drilling operations on stainless steel and inconel.

Technical data

Viscosity @ 40°C: 50 cst

> 70% of "easily biodegradable" raw material (OECD 301)

RRM: > 55%
