

LUBA 21

Ecofriendly lubricant for profiling and light cutting operations

Description

Cold forming chlorine-free fluid. Designed to replace solvanted oils and mineral based fluids. Made from vegetal synthetic esters, it possesses an outstanding wetting power allowing better parts finishings and longer tools lifetime. LUBA 21 contains 86% USDA certified biobased content

Applications

Specifically designed for cutting, bending, punching, stamping operations. Highly suitable for sawing, drilling and threading operations. Recommended for light stamping.

Technical data

Viscosity @ 40°C: 4-6 cst

100% of "easily biodegradable" raw material (OECD 301)

MPR : 86%
