

LCH 250

Extreme pressure sticky grease

Description

With complex soap base, excellent stability during work and in high temperatures. High resistance to water, even under pressure.

Applications

For all types of bearings or mechanisms subject to severe load, temperature conditions et de vitesse. Rolling mill bearings under spraying and in moist conditions. Bearings, locks, farm machinery, cement plants, hydro-electric power stations, etc.

Technical data

Operating temperature range: -25°C to +160°C

NLGI Grade: 2

Facteur NDN : 500 000
