

## GR PTFE AL

### PTFE white grease

#### Description

Clean lubrication. Good resistance to water and dust. Infusible (does not leak). Long-term lubrication. Flat nozzle spray together with extension tube for hard-to-reach areas. GR PTFE AL is registered by NSF International, in category H1. This indicates that it is authorized for use in incidental contact with food. (N° 163619)

#### Applications

Industrial bakeries, biscuits, dairy plants, slaughterhouses. Plumbers, general mechanics ...

#### Technical data

Operating range of temperatures: -20°C to +200°C (250°C for dry lubrication)

Non-flammable propellant gas (CO<sub>2</sub>)
