

## THERMOLUB SP

### High temperature copper assembly compound

#### Description

Smooth compound with copper that facilitates use. Does not dry over time. Completely insoluble in water, steam and diluted acid. Perfectly adapted to a large number of plastic injection applications.

#### Applications

Seizure and corrosion prevention for mechanical parts and assembly of screwed assemblies, at very slow speeds and high temperatures. Lubrication of valves, slides, etc.

#### Technical data

Greasy lubrication: -20°C to +140°C

Dry lubrication: +1200°C

NLGI Grade: 1
